"CUMBERLAND Gap to the Blue Grass' is the slogan of the mountains. "On to the Cumberland Gap' is echoed to the Blue Grass. National highway over Boones trail from the historic gap to Crab Orchard a distance of 98 miles to be built at the expense of our national government is a live question in the Eleventh district and will be put up to the various candidates for Senatorship. We the people of the mountains, be lieve the Blue Grass will stand by us and assist in putting a bill through Congress appropriating a sufficient amount to cover the ex pense of the construction of said highway. The whole cost, including bridges should not exceed \$300,000. This amount compared with the many mil'ions paid by our State into the National treas ury, every month in the way of internal revenue taxes is a mere bagatelle. We think the time should not be far off when the old saving "the mountains don't get nothin nohow" ought to undergo

a radical change. A highway of

Will you take notice to this? for I am hungry for just such a letter, as I am, well aware of the fact, that you can write it if you want to, that would be very interesting to me. Well old friend; there is a good smart span of country between us, but that should not weaken the tie of friendship. I will not undertake to say anything about this country as I am sending you under another cover the New Years Edition of the Oreganican, one of our Portland Papers, and it will tell you about the country, and I want you to look over it carefully and in our house pulled off rose bushes in our yard every day so far. seemed to offer the slightest pro mise oac ure. Prevention, however, is the logical solution of the question. Dr. Hess. (M.D., D.V.S.) has always maintained that by giving Dr. Hess Stock Tonic to tone up and strengthen every organ in the system, to regulate the bowels, liver and kidneys, expel worms; and also thoroughly disinfect the premises, sleeping quarter and runs with Dr. Hess Dip and Disinfectant, would prevent an outbreak of this disease.

Read what one of the big hog raisers in the country says:

During 1911 our country was visited by one of the worst hog plagues ever known. We fed Dr. Hess Stock Tonic, and only lost two head out of a herd of two hundred and ten."-Alex. Nevius, Modesta, Ill.

Also note what bulletin No. 182 of the Kanssas State College says about preventing Hog Cholera

When we recall the conditions which favor the disease and the manner in which its infection takes place, it will be seen that feeding and earing of hog has much to do with the prevention of the Cholera. Premises should be cleaned and disinfected regularly. The hogs themselves should be dipped every few weeks. Main aining these conditions helps to keep up the vitality of the hog and in this way troubles of all kinds are warded off. To aid digestion and circulation and to prevent worms, the bulletin recommends a formula of Wood Charcoal, Sulphur, Sa.t, Sodium Bicarhonate, Sodium Sulphate, Sodium Hyposulphate and Black Antim

This formula, given in tablespoonful doses would undoubtedly be benefical but would cost the hog raiser about pound. Now compare this with the formula for Dr. Hess Stock Tonic which is vastly superior and has stood

This preparation is compounded by Dr. Hess, (M.D., D.V.S.) and sold to you on a written guarantee and only costs 3c per month for the average hog. The definition of the ingredients are taken from the United States Dispensatory and noted medical authorities. Feed your hogs
